

609 MAIN AT TEXAS

HOUSTON, TX

609 Main at Texas is a premier Class A commercial office building in the heart of downtown Houston and the headquarters of United Airlines. When fully occupied, the building will support approximately 7,300 employees, making reliable in-building cellular coverage and wireless connectivity essential to the tenant experience and day-to-day business operations.

Airwavz Solutions partnered with Hines to design and deploy a scalable neutral-host Distributed Antenna System (DAS) that enhances indoor cellular coverage throughout the property.

Working with multiple wireless carriers, the solution delivers seamless connectivity today while providing the flexibility to support future tenant growth and evolving wireless demands.
